

Making a Difference

From Emily:

I was a rider here for 15 years, before I went away to college. Now, I am a graduate from Rose-Hulman with my Mechanical Engineer Degree, and I work a full-time job with Braunability, a wheelchair ramp company for motor vehicles. I was born with Ataxic Cerebral Palsy with Epilepsy after a traumatic birth. When I was three, my family found MTRP for me. At that point, I had "graduated" from conventional therapy, but I was still using a reverse walker with motor skills of an 18-month-old. From there, the rest is history. Not only has MTRP helped me physically from learning how to walk to running with my highschool track team, but it helped me in so many other ways. Every week, I looked forward to coming here. I got to not only interact with the horses and finally be in physical control, but I got to talk to, play games, and laugh with other kids like me. This was the place for a half an hour, once a week, I could just be a normal kid. For that, I want to say thank you. Thank you...The people at MTRP change lives everyday.
